

AMENDMENT TO THE DRAWINGS

A revised drawing sheet incorporating a correction to Figure 5 accompanies this preliminary amendment.

REMARKS

Applicant respectfully requests entry of a correction to Figure 5. The accompanying revised drawing sheet incorporates the correction.

Figure 5 as originally submitted included an extraneous partial sinusoid that appears below reference numbers 514 and 516 of waveform (a). This object was clearly extraneous and unrelated to the remainder of the drawing. The extraneous object has been eliminated in the accompanying revised Figure 5.

If there are any issues that can be resolved by telephone conference, the Examiner is respectfully requested to contact the undersigned at **(512) 858-9910**.

Respectfully submitted,

Date April 7, 2004
